SAVE TREE SAVE LIFE SOCIETY

1. ABOUT **SAVE TREE SAVE LIFE SOCIETY**

Save Tree Save Life Society is an emerging registered non-governmental organization under the Travancore - Cochin Literary and Charitable Societies Act of 1955 with Reg. No: KTM/TC/248/2012. Save Tree Save Life Society focuses on sustainable development of the environment. For two decades the flag holders of the organization are involved in the areas of environmental protection, education and awareness activities. The dedication and collective efforts of our organization have paved way for a very unique and promising project, titled as **“Save Tree Save Life”** which we consider will help our motherland for an environmentally sustainable future.

1.1 MISSION

We have estimated to plant **One Billion Trees by 2050**.

SAVE TREE VISION
SAVE LIFE

2050

BHARAT

GREEN...MORE GREEN

2. “VISION 2050 BHARAT”

By most estimates, India’s economy is likely to continue on its current growth path and will rise from being the world’s tenth-largest economy today to the third-largest by 2030. On the one hand, this can be a cause for celebration, restoring India to its 17th century position of global pre-eminence and setting India as a global leader. We at Save Tree Save Life Society strongly believe that it is the responsibility of each one of us to ensure an environmentally sustainable future for the world. India needs to value its natural resources, and ecosystem services to better inform policy and decision-making especially since India is a hotspot of unique biodiversity and ecosystem.

3. VISION 2050 BHARAT PROJECTS SERVICES

3.1 “Vision 2050 BHARATH” - is a long-cherished dream of our NGO to save our mother land and in turn to save the world and its future generations from environmental pollution, water scarcity and rising temperatures as we know that economic prosperity cannot be achieved at the cost of the environment. It is critical for us, as an industry to shift from 'pollute-first, clean-up later' attitude and commit to preserving our diminishing natural resources. The project envisages multidimensional approach to preserving green earth and would like to properly align with **Dream India** concept of our **Prime Minister**. We are equipped enough to implement the project under the following programmes which are well planned to execute.

WE HAVE
MAKE GREEN INDIA

ONE HOME
DO CLEAN INDIA

3. VISION 2050 BHARAT PROJECTS SERVICES
